NANOTEC LINE®

PREMIUM LIGHTERS

New Premium lighter from Flameclub

Flameclub Nanotec Line lighters without flame adjustment designed by Swiss engineers specially for those who appreciate high quality and reliability.

Flameclub Nanotec Line lighters are fundamentally different from regular lighters:

- Strong and durable body made from high-quality POM material, which allows to withstand a temperature of 85°C;
- Fixed flame technology;
- Flameclub Nanotec Line lighters use high quality components coming from Switzerland.

Flameclub Nanotec Line lighters are conform with international quality standard ISO 9994 & EN 13869.

Special equipment, high-quality materials and the latest technology offer a safe and reliable Flameclub Nanotec Line lighter.

Flameclub Nanotec Line lighters will emphasize your individual style and will be the key to your success!
